

You are eligible to register and vote if you are a U.S. citizen and will be 18 by election day, November 5. You may pre-register for future elections if you are 16 or 17. Registration should be completed by October 21, which is 15 days before the election.

This year all registered voters will receive mail ballots, so register early to allow time for mailing. Ballots will begin being mailed in early October.

LAVote.net is the county's website for all information related to registration and elections. You can register online there, update your address, and locate your voting centers and drop boxes. Locations of voting centers and drop boxes will be available at LAVote.net by late September.
